

# Thinking about retirement?

Your association will still be there for you...and remember, if it doesn't start with IEA – it isn't us!

**IEA-Retired** is your continuing connection to the services, programs, discounts and advocacy efforts of the Illinois Education Association-NEA.

Below are just a few of the **IEA-Retired** membership benefits.

- 1) **IEA-Retired** colleagues and friends stay involved by meeting together regularly in local chapters. They conduct great programs, stay active in support of public education, participate in IEA conferences and activities, and engage politically to protect state retirement programs and benefits.
- 2) You'll continue to receive the outstanding discounts and money-saving programs available through NEA Member Benefits and IEA's Access Saver programs. Saving money is even more important in retirement years. After registering on the site, you will have access to:
  - [NEA complimentary life insurance](#)
  - [NEA guaranteed issue life insurance](#) (*guaranteed for those 45 and over*). \$10,000 and \$20,000
  - [NEA dental and vision insurance](#)
  - [NEA retiree health program](#) (*Medicare supplement insurance*). Typically 15 percent cheaper than competition.
- 3) **NEA Educator's Employment Liability insurance protection continues.** If you intend to substitute teach or take any temporary employment in the public schools during your retirement, this protection is essential and brings great peace of mind.

(continued)

- 4) **You'll continue to receive the *IEA-Retired insider*** electronic newsletter and other IEA-NEA publications.
- 5) **You'll be invited to participate in the *IEA ONE* conference.** This annual event features an outstanding line-up of programs, speakers and topical presentations specifically designed for retired teachers, education support professionals and higher education faculty. (*This year's conference is Oct. 15 in Oakbrook.*)
