President's Report

Retirement Language

Negotiations of the successor Agreement to the expired 2017-18 Elgin Agreement are ongoing.

Article 27.10 U-46 RETIREMENT INCENTIVE PLAN provides for a recognition bonus for qualified individuals. The Plan also stipulates a notification deadline of March 1 to secure either a one or two-year Benefit. While a Tentative Agreement has not been reached at this time on the successor Agreement, it is our joint desire to support the planning process of those considering retiring in the near future who were not qualified to secure the retirement benefit under the expired 2017-18 Elgin Agreement.

For those teachers who gave a retirement notice prior to March 1, 2018 under the expired 2017-18 Elgin Agreement, the following does not apply.

This memorandum of agreement between School District U-46 and the Elgin Teachers Association provides as follows:

- 1) the March 1 deadline is suspended for the first year (2018-19) of the successor Agreement, and
- 2) upon ratification of the successor Agreement by both parties, teachers who qualify for the retirement benefit shall have fourteen (14) calendar days from the date of approval by the Board of Education of the successor Agreement to give written notice to the district of their intent to retire under the successor Agreement. For those who gave notice prior to the ratification of the successor Agreement, the same fourteen (14) calendar day timeline applies for revocation of such notice, and
- 3) after the initial fourteen (14) calendar day window, all teachers under the Agreement shall be held to the stated terms and provisions of the successor Agreement.

3% Petition

- On Wednesday, February 13, we asked you to get signatures of members that we will be delivering to the Illinois Assembly next week. Make sure we collect those petitions before you leave.
- The next day, The House Personnel and Pensions Committee moved the 3 percent repeal bill out of committee this morning so it can now be heard on the floor of the Illinois House of Representatives. No date has been set for that debate. The committee vote was 6 to 3.
- This week, we're asking you to [send an email to your lawmakers](#). They are working in Springfield this week and the more they hear from their constituents, the more likely they will be to vote the way we need them to on this repeal bill. All you have to do is [follow this link](#), and the tool will walk you through the process. Click the **Take Action** button and enter your mailing address and your lawmakers' names will pop up, along with a pre-written email that outlines the issue and why IEA members across the state are finding problems with the 3 percent law.

Section Meeting Report Out

- Super section meetings have been held (One to come March 8)
- Discussions have centered on member issues across the levels
- Issues discussed at multiple meetings included safety, student behavior, SIP and SD, bargaining, building initiatives and how members handle them.
- This is something we hope to continue to do to bring the membership together.
We are all the ETA and need to support each other at all levels.

SIP and SD Training

- A training module is being developed currently.
- As soon as it is completed we will reach out to buildings to schedule a time to come out.
- SIP and SD represent opportunities for our members to have their voices heard in the academic planning program and the discipline and running of our buildings. We **MUST** have our voices heard at these committees.

ETA Audit

On Wednesday, the ETA Board of Directors voted to approve an audit to be performed by Tighe, Kress, and Orr (TKO).

- We have not had a full audit done in over a decade. Previously we had financial reviews done every two years.
- This audit comes at the recommendation of the IEA and keeps us aligned with our ETA bylaws.
- The goal is to ensure that our books are accurate and that we are sound in our financial practices.

Safety Concerns

Send your safety concerns to ElginTeacherSafety@gmail.com

- We are compiling your stories to help lead our discussion with district administration on the safety at our schools.
- Our teachers and students deserve to come to school feeling safe.
- The stories have been overwhelming. The stories I am hearing confirm the passion our teachers have for the profession and their commitment to our students.
- The quotes that follow are from your fellow members. If you think you are alone, you are not. If you think you are safe, there are fellow members who feel they are not.
- These come from multiple sites, multiple grade levels, and multiple programs.

ETA Safety Concerns

Quotes from Teacher Messages

“What I do feel on a daily basis, however, is a pervasive lack of control of my surroundings. Every day, I interact with students I know and those I don’t. When interacting with students I do not know, there is an underlying feeling that I am not in charge. That approaching this student and simply asking them to redirect their behavior could quickly result in an aggressive verbal attack from the student. In the hallways, in the cafeteria, in a classroom that I cover for a colleague, I do not feel like I am the one in charge.”

“When I hear about what happens in this school to threaten my safety from students more than I hear from our SRO and our admin, that is cause for concern. From the CEO on down not a single administrator in this district cares if I live or die. If this were college sports, the only way to describe what is happening in our district and buildings is a ‘Loss of Institutional Control.’ The admin in this district have no control of what’s happening in buildings, and simply don’t care. In sports, this gets you fired. In U-46, the administration gets a raise.”

ETA Safety Concerns

Quotes from Teacher Messages

"When those individuals have exhausted all of them (resources) we go to Administration for support and we are told 'What do you want me to do about that?' It is very disheartening."

"When do we step back and reevaluate the trauma we are inflicting on innocent children that are forced to witness these extreme behaviors in schools and classrooms on a daily basis?"

"When I came back to work, there was no discussion of what happened. The student was back and there was no safety plan, or debriefing."

"I went to school to educate students with special needs, not to protect myself, students, or other staff members from being abused everyday."

"We are not here to make you feel better." - District Administrator

"The problem in the elementary schools is the lack of consistent reactive administration.

"We were told by a district administrator that this kid was not harmful at all, and he is a little kitten. Until this kid threw things at the administrator and wrecked a room downtown is the only time they listened to us."

"Basically, what administration was saying...threatening your teacher is completely and totally acceptable."

"We are not quitters, so we show up everyday, hoping it will get better. It doesn't.

"Why do we have to be beaten emotionally and physically by these students in crisis?"

"Two students who were fighting yesterday in the hallway are both back in school today. Consequences are a thing of the past."
